Title: DISPOSABLE WEARING ARTICLE

Claim

A disposable wearing article comprising a top sheet, a back sheet, at least one elastic member disposed between the top sheet and the back sheet near their edges, characterized by:

said at least one elastic member disposed between the top sheet and the back sheet at given areas near their edges and

each of said given areas, between its internal edge and its external edge, folded internally to be fixed so that one portion of top sheet is opposed to the other portion of top sheet

Reference Numeral

1---Article, 2---Top sheet, 3---Back sheet, 4---Waist opening, 5---Leg opening, 6---Elastic member, 7---Given area
